CONFIGURATION
MANAGEMENT (GIT)

LINUX ADMINISTRATION
(UBUNTU, RED HAT, CENTOS)

DATABASE MANAGEMENT
(MYSQL)

ROOT CAUSE ANALYSIS (RCA)

INCIDENT MANAGEMENT

API TESTING (POSTMAN,
JMETER)

PROCESS DOCUMENTATION

STRATEGIC PLANNING

BASH SCRIPTING

PYTHON

EDUCATION

B.Tech/B.E.

2012

PUNE UNIVERSITY

PROFESSIONAL SUMMARY

Certified Kubernetes Administrator (CKA) with 11+ years in the TV broadcast industry, specializing in Kubernetes, Docker, OpenShift, and system health monitoring using Grafana, Kibana, and Prometheus. I excel in building scalable, high-availability infrastructures and automating workflows with tools like Jenkins and GitHub. Proficient in Python and Bash scripting, I've automated routine tasks, improved system reliability, and created real-time monitoring dashboards to enhance service delivery and minimize downtime.

EXPERIENCE

Duty Engineer

NOV 2023 - PRESENT

Sony Pictures Networks

- Leveraging DevOps practices to streamline operations and enhance system reliability.
- Manage live events (Australian Open, WWE, UFC, Hockey) and playout systems for 50+ channels.
- Handle media asset management using DIVA, GBLabs, and AWS S3 Deep Glacier.
- Automate repetitive tasks using BASH and Python.
- Work on Synamedia compression and VGCAS systems.

Deputy Manager Broadcast, CAS

DEC 2020 - OCT 2023

Jio

- Managing more than 14000 service configurations for 25+ Headends.
- Working on Verimatrix CAS for 3m+ customer base.
- Automation using BASH scripting.
- Managed OpenShift cluster with autoscaling and HA, including cluster-wide backups.
- Log analysis using Kibana, Prometheus query, and Grafana dashboards.

- **Senior Systems Engineer** DEC 2019 - DEC 2020
Tata Play
 - Installed and configured critical broadcast equipment (MUX, Modulators, Encoders, IRD).
 - Created Bash scripts to automate routine tasks.
 - Designed Grafana and Kibana dashboards for system health and critical KPI monitoring.
 - Led Root Cause Analysis (RCA) to minimize downtime.
- **Senior Broadcast Engineer** MAY 2016 - NOV 2019
Reliance Communications / Independent TV
 - Installation and configuration of station equipments like MUX, Modulator, Encoders, and IRD.
 - Bandwidth utilization and planning for satellite Transponders.
 - Handled XMS and XMU for system monitoring.
 - Software Release Testing & OTA testing with STB Team.
- **Broadcast Engineer** NOV 2014 - MAY 2016
Prime Focus Technologies (PFT)
 - Configured Appear TV Encoders, Demodulators, and managed multicast IPs for 400+ channels.
 - Administered SML servers for ERP data storage and installed C-band antennas.
 - Performed technical fault analysis and system upgrades.
 - Handled audio watermarking using WMM.
- **Headend Engineer** FEB 2013 - NOV 2014
IndusInd Media and Communication Ltd
 - Configuration of QAM Modulator, PSI-SI Server, MPEG 2, Encoders.
 - Preventive maintenance and fault finding in network.
 - Handled EPG programs and service swapping.

PROJECTS

Multichannel Landslide monitoring using Image Compression Technique

- Image Compression using MATLAB.

Basic CAS System

- Simulated CAS functionality using a microservices architecture on Kubernetes with Helm.
- Achieved build/deployment times under 10 minutes using Jenkins.
- Integrated ELK, Grafana, and Telegram bot for alerts and monitoring.
